

Chippewas of Kettle & Stony Point First Nation

6247 Indian Lane,
Kettle and Stony Point FN, Ontario, Canada N0N 1J1

April 12, 2019

IMPORTANT

COMMUNITY INFORMATION:

The Kettle and Stony Point First Nation has recently constructed a new Elevated Water Tower on Hawk Crescent and new water Booster Pumping Station on Indian Lane. These facilities will be brought into service by the end of May 2019. Beginning on Monday, April 15, 2019 and over the next month, please keep an eye on internal plumbing fixtures as there is a higher risk of plumbing malfunctions due to increased pressure in the water distribution system.

Water servicing will be maintained throughout the modifications, however, residents may notice changes in pressure throughout the work and following the completion of the works. There is the potential for temporary aesthetic changes to water quality such as water colour, odour, and/or taste during these activities. If you encounter any of these conditions, you may contact the numbers listed below.

We will take every reasonable precaution to minimize disruption and we apologize for any inconvenience you may experience. For more information, please contact Connie Milliken at the Administration Office at (519) 786-2125.

Emergency Contact Numbers:

Project Manager: (519) 918-4163

Water Plant: (519) 786-2575

After hours emergency on-call: (519) 330-7779

Your understanding is greatly appreciated.
