Dear Chippewas of Kettle & Stony Point First Nation Members,

RE: Community Policing Concerns

There has been an increasing amount of concern being directed at The Chippewas of Kettle and Stony Point Administration, as well as Chief and Council in regards to community policing. The Anishnabek Police Service is a separate entity from this First Nation and has its own distinct governance and management structures. Chief and Council and the Administration do not provide direction to the APS in regards to their work. If you have any concerns, please visit their website www.apscops.org for a listing of their process for compliments and complaints.

Thank you,

Chippewas of Kettle and Stony Point Chief and Council.
