# COVID-19: Community Services Update

Dear Chippewas of Kettle and Stony Point First Nation community members,

The health and safety of all community members is the top priority for Chief and Council, and we are working hard to limit the spread of the COVID-19 (Coronavirus) into our community. While there are currently no cases in the community, this action is to protect our staff, and community members.

In order to mitigate the impacts of COVID-19, the Kettle and Stony Point First Nation Chief and Council have advised that KSPFN Administration services will be closed to the public effective immediately. We will continue to utilize senior administration staff to maintain day to day operations and support services. While the Health Centre and Assisted Living Facility will remain open for essential services, visitors will be screened and are asked to only visit if absolutely necessary.

We will continue to monitor the spread of the COVID-19 and commit to provide updates on the Nation's pandemic response. Over the next week we will work to provide updates on essential services in a timely and efficient manner as we continue to deal this rapidly changing situation.

Chief and Council will continue to monitor and respond to this rapidly changing situation. We will update the community as often and quickly as possible.
