MAY 22, 2020

Attention Community Members,

RE: NOTIFICATION OF HYDRO LINE CORRIDOR TREE & SHRUB ASSESSMENTS

The Community has had a significant amount of service calls related to trees and energy distribution/hydro issues, to ensure a resilient power/energy infrastructure, Hydro One will be assessing the hydro lines and the adjacent trees and shrubs along the roadside throughout the community starting Wednesday May 27, 2020.

This assessment will be used to determine which trees and shrubs will be needed to be trimmed and/or removed for safety and to prevent disruption in service.

Workers conducting the assessment will be adhering to Public Health protocols of physical distancing during their time in the community.

Miigwetch,

Kettle & Stony Point First Nation
