6247 Indian Lane

July 2021 – Information from the Housing Department

Applications for apartment rentals are being accepted until August 31, 2021 at 4:00 pm. The applications can be picked up at the reception desk OR I can email the application to you. If you want an application emailed to you, send me a quick email so I can respond with the application. It is YOUR RESPONSIBILITY to complete the application and to submit all necessary documentation. It is preferred that your completed application is in a sealed envelope.

If you are a carpenter or are trades person who is looking to be included in bidding on work that needs to be completed, please email me with the type of work you are interested in bidding in on. I will need an email address and telephone number for a list that I am compiling. Scope of work and tenders will be sent out via email with deadline dates attached.

Capital Renovations are going to be available soon. It is up to the individual to obtain all quotes for renovations – it is preferred to obtain at least two quotes. Keep an eye for the deadline date for the Renovation application to be submitted.

Septic systems - If you need a new septic system installed, you need to have an inspection report. Please contact Lori Monague at 519-786-5647 to arrange for this. You must have the installation complete and final inspects by a certain date in the fall that needs to be established, usually before the first frost.

Ramps - If you are applying for assistance to install a ramp, you will need an inspection from the Housing Inspector. If it is a complex ramp an architect drawing must be submitted. These drawings can be obtained from Southern First Nation Secretariat.

Inspections are usually completed on Tuesday afternoons and these need to be booked ahead of time.

A friendly reminder: please have your septic system cleaned out at least every three years and do not permit anyone to drive over it. By doing these two things, it will extend the life of your septic system.

Keep an eye for the deadline date for the Renovation application to be submitted.
